

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is frightening.

Partisan programming disguised as news or documentaries is a threat to our democracy. It is wrong to have "the wool pulled over some people's eyes" in this manner. This user of the public airwaves has a fiduciary responsibility to present both sides of a position and to do it with integrity.

From another perspective, it is stealing. The campaigns have paid dearly for seconds and minutes of persuasive communication. This does not support the public interest, only the interests of one party and there won't be time for the other to clear up what about the program is true and what is not. It is like knowing you will be fined by some government entity for doing something wrong and deciding that the result is worth the fine. I do not know the penalties, but I suggest they need to be more severe in order to extinguish this kind of thinking.

Please do what you can to stop the airing of this program and save our democracy.  
This is JUNK, JUNK, JUNK.
